juventa
bathroom furniture

JuventaTM Company was promoted in 2000. In 2004 the first factory of the bathrooms furniture production JuventaTM was built and put into operation in Slavuta (Khmelnitsky region, Ukraine). On July, 1, 2007 a company put into an operation a new modern factory of the bathroom furniture production. Productive capacity of the new factory is 30 000 articles per month. About 300 employees are working there.

The new JuventaTM factory was projected by the engineers of the leading Italian firms, set the woodworking equipment. The object of the special pride is the paint line. All necessary ancillaries were put by the best German and French producers.

Leading specialists and technologists of Juventa studied at the Italian enterprises.

Today JuventaTM factory is the modern highly technological production, without any analogues in Eastern Europe. All production processes are automated. The factory works in the unified conveyor technological process, with minimum human participation and maximal application of the computer technologies.

It assists the rapid production of high-quality furniture.

During the years of the activity JuventaTM and its highly skilled staff became a reliable and serious partner.
